

A Study of San Diego County Local Child Care Needs and Barriers: Data and Insights for San Diego County Individualized Child Care Subsidy Pilot and Local Child Care Policies

May 2018

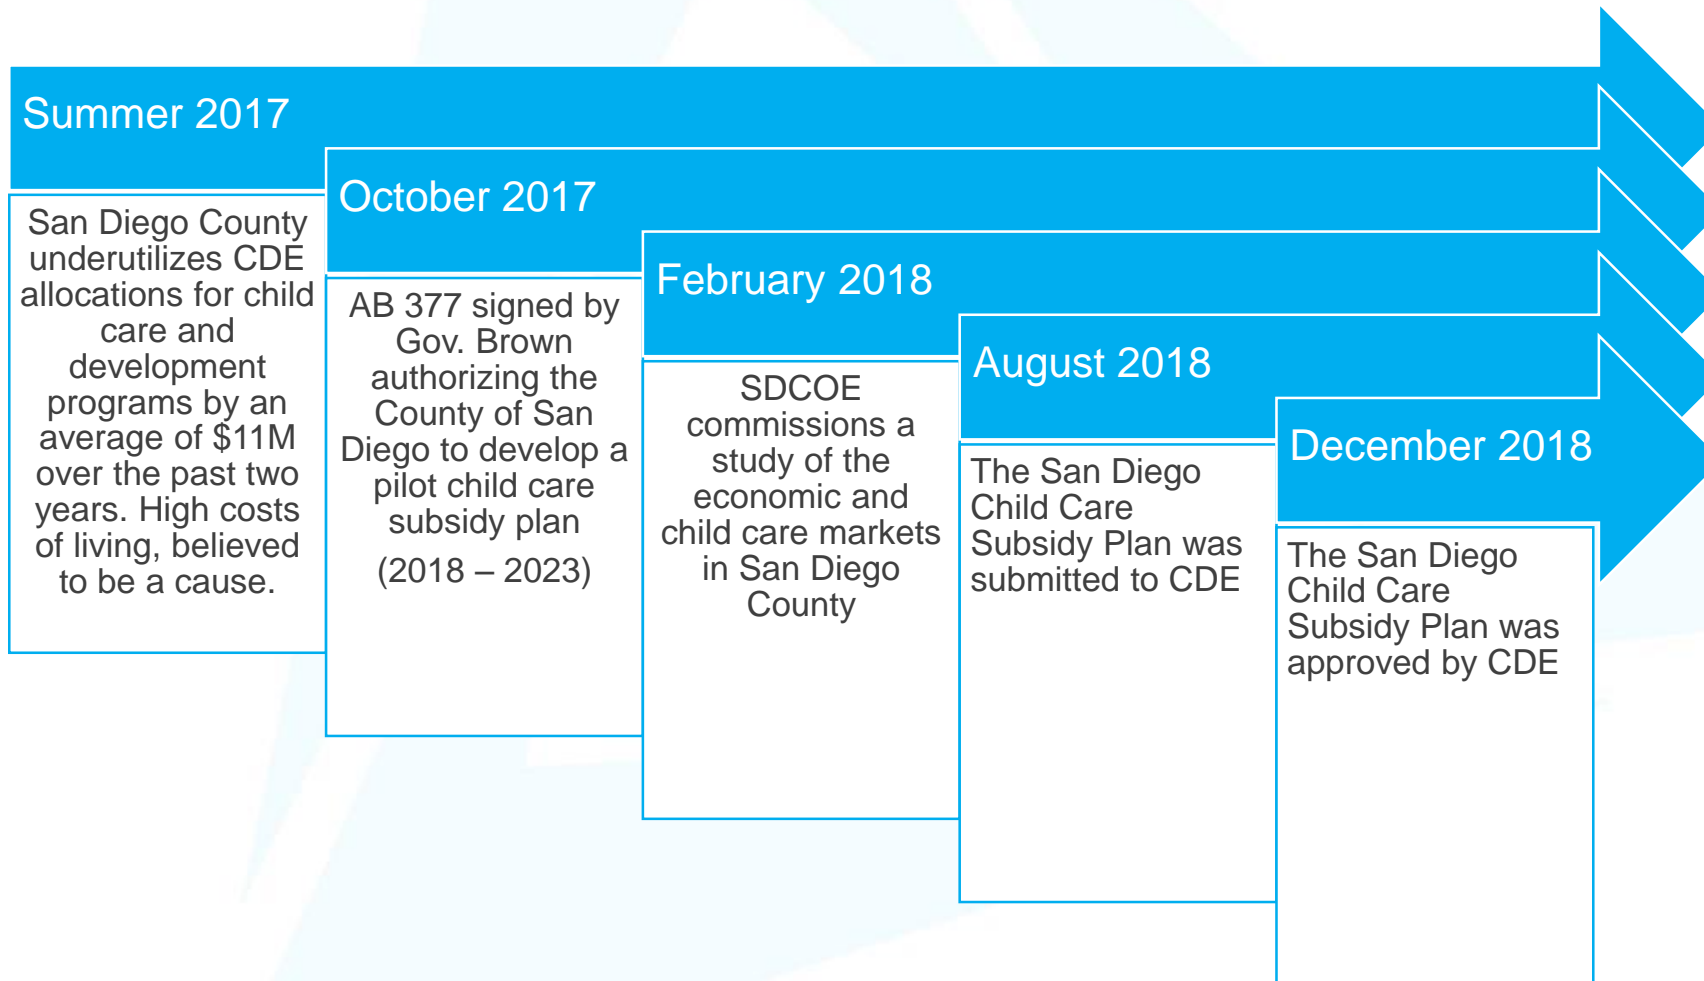

Prepared for the San Diego County Office
of Education, Child Care and
Development Planning Council

Caster Family Center for Nonprofit
and Philanthropic Research

Timeline and Frame of the Study

Study Components

- Demographics of families in need of Child Care
- San Diego County's self-sufficiency income level
- The cost of providing Child Care
- Availability of, and enrollment in, subsidized child care

Demographics of Families in Need of Child Care

60%
Estimated percent of children ages 0-5 whose parents work outside the home¹

Race/Ethnicity of San Diego County Children, 2016³

San Diego County Languages Spoken at Home, 2016⁴

Income Brackets for San Diego County and California Families, 2016⁷

Annual Median Income for San Diego County and California Families, 2016⁸

¹ U.S. Census American Community Survey, 2016 1-Year Estimates Table B1931. Includes two-parent households and single parent households with children under 18.

² Data Source: 2016 California Department of Finance Population Projections.

³ Data Source: Kidsdata.org, 2016.

⁴ Data Source: American Community Survey 1-Year Estimate, 2016 (Table S1601).

⁷ Data Source: American Community Survey, 2016 1-Year Estimates Table B19131. Includes two-parent households and single parent households with children under 18.

⁸ Data Source: American Community Survey, 2016 1-Year Estimates Table B19125. Includes families with own children under 18 present in the household.

San Diego County's Self Sufficiency Income Level

Figure 7: Self Sufficiency Income Level Compared to Income Cutoff for State Child Care Subsidy for a Family of Four⁹

42,010
 Estimated number of children (0-12) in San Diego County who are not currently eligible for a child care subsidy, but will become eligible with the income cutoff change to <85% SMI.¹²

⁹ California Budget and Policy Center. 2017. *Making ends meet: How much does it cost to support a family in California?* This estimate is based on a family with two working parents, one preschool-aged child and one school-aged child. Basic monthly budget includes housing and utilities, food, child care, health care, transportation, miscellaneous and taxes.

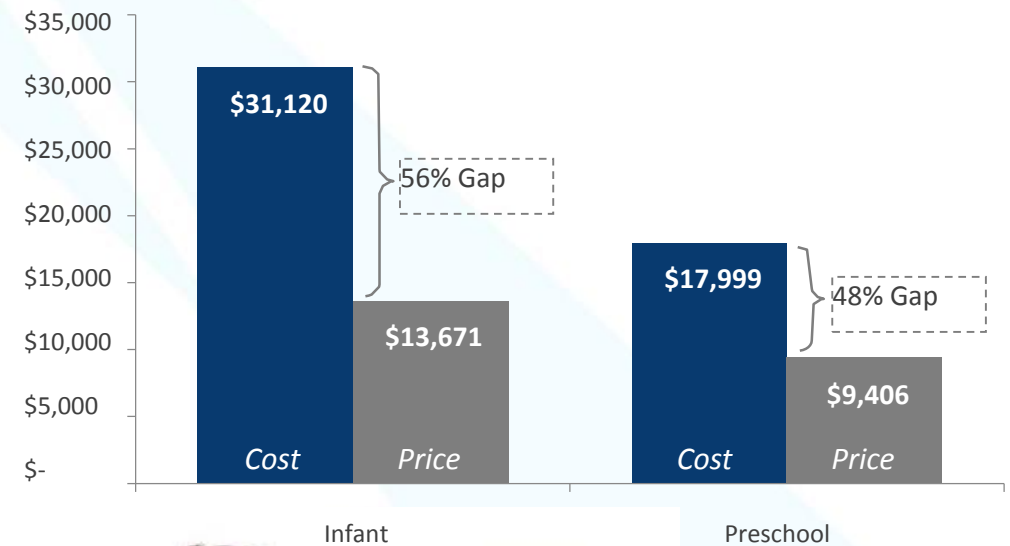

¹² Percentages are derived using two data sources. Numerator = Number of children whose families earn <70% of SMI and between 70% and 85% SMI. Data source: American Institute for Research, 2016. *Early Learning Needs Assessment Tool*. Denominator = Total population 0-12 years. Data source: 2016 California Department of Finance Population Projections.

The Cost of Providing Child Care

7 Elements of Quality:

- Use of observation tools to identify strengths and opportunities for growth
- Developmental and health screenings
- Qualified teachers
- Effective teacher-child interactions
- Adult-to-child ratios and group size
- Safe and engaging program environments
- Qualifies early learning center directors
